Homeopathy doesn't work? Really?????

Published on 2026-11-27 by Henning von Stosch

The Satanists maintain their power
by sidelining you!
You're letting yourselves be distracted! How long will they continue to succeed
with this despicable trick ? How long will you bleed to death in trenches for these scumbags !

How long will you continue to be fooled by the propaganda of Satanists?

-
  - Haven't you still understood that with 911, you first have to look for a force that can pulverize massive steel beams?
  - But that doesn't happen!
    -
    - Most people still believe the fairy tale about jet fuel and nanothermite!
      -
      - The melting of steel with nanothermite was not demonstrated, so it doesn't work!
      - The steel wasn't melted "in hours", but rather pulverized into dust at free-fall speed
  - One must therefore find a "dusting force" that instantly transforms massive steel into dust (**specifically into fine dust**)!
    -
    - Only two people offered a solution:
    - Title: Complete Book Dimitri Khalezov 9 11thology Third Truth V 4 Full
    - URL: **https://archive.org/details/911thologyThirdTruthV4Full**
    - and
    - Title: **Judy Wood and her research** .
    - URL: **https://www.youtube.com/results?search_query=where+did+the+towers+go+documentary+judy+wood**

Are you beginning to understand the lies , or do you really want to remain ignorant forever

Let's get to the
PROBLEM WITH HOMEOPATHY:
It requires far more brainpower
than "normal conventional doctors"
could ever possess!

If that weren't true,
I wouldn't be alive anymore!

So what happens to
HOMEOPTHIA?

Competition should be permanently switched OFF!

The drug that saved my
life for about six months many years ago has been off the market since 2010!

-
  - I am fully aware that Dr. Hamer prescribed fewer and fewer medications!
  - Only after reading (and understanding) his books did I know that I was a death row inmate beyond saving!
    -
    - According to the then-current expertise of Dr. Hamer, any possibility of rescue was ruled out!
    - **The way to overcome any healing crisis without lasting damage is so inexpensive** that the " **Hamer idiots** " who memorized Germanic Healing Knowledge better than I did don't spread it!

      So these guys also want to
      withdraw money first!

-
  -
    -
    - You can find the expert knowledge here:
      https://sonnenspiegel.eu/?s=Heilungskrisen

    - One of the instructors even tried to trick me!
    - The most severe symptoms always occur during the healing crisis! That idiot denied it at a seminar!
      -
      - I had no counterarguments at the time.
      - I was nowhere near as well as I am today

    - When I registered for one of his seminars and didn't receive confirmation, I said goodbye to him!
    - He came from Bremen back then

  - Back to overcoming every healing crisis:
  - Well: "God is on the side of the fools"!!!!!
  - Somehow I came across an over-the-counter medication that saved me for half a year!

- The "somehow" has been found!
- Here is the first edition of the book by the "Self-Help Group for Responsible Citizens": The Healing Arts of Tomorrow; The Solution to the Cancer Problem; Other Help and Taboos. Compiled by Erika Herbst, Schloßweg 2, D-09537 Feucht. No year given. No ISBN number! Ms. Herbst has long since passed away

- The package leaflet can be found here: Strophantus_Beipackzettel_OCR .
- Here is the scan of the packaging and the bottle: Strophantus_Verp_Flaschenetikett_OCR .
- My last bottle was probably produced in 2002.
- The company still exists and the people there are friendly: **https://www.strath.de/** .

- Now a question comes to mind:
- I've already posted about this stuff online, and it hasn't been manufactured since 2010.
- Does the discontinuation of production have anything to do with the fact that I repeatedly mentioned the drug when I distributed this expertise on CD and then on DVD for at least four years?
- Only after that did I put the knowledge online and spread only the " **path to expertise** "!
  - Title: Has the cancer problem been solved?
  - URL: **https://archive.org/details/IstDasKrebsproblemGeloest2**
  - Note: You'll find plenty of tried-and-tested practical knowledge there!
    - **First, get rid of the filth from your body** , and then start thinking about your diet!
    - What do you think of homemade **sourdough bread** ?
    - I use this expertise:
    - Title: The Power of a Successful Diet
    - URL: **https://shop.leidenschaft-brot.de/collections/zubehoer-und-literatur/products/die-kraft-einer-fruchtreichen-ernaehrung-ein-neu-gedachtes-ernaehrungskonzept** .
    - Note: I receive no money for posting this link and I wouldn't accept any!
    - My "reward" consists of using the expertise available there
  - Don't forget Dr. Bruker either!
  - Start with this book:

- Title: Dr. med. Max Otto Bruker: Our Food – Our Destiny
- URL: **https://emu-verlag.de/ Unser**

- Now please accept that there are different ways of recognizing things!
- People are not better or worse, just different!
- What one person can do, another person can either do much worse or not at all

- If you want to plunder other people, they will become passive and will not help!
  -
  - However, this topic is too extensive to discuss here!

It requires collaboration
on equal terms and an
understanding of differences!
There's still something that needs to be practiced!
And that's all I'll say about it today!

Now find yourselves a good homeopath!

They think and act differently than conventional doctors who have been brainwashed at university!
